

INSTALLATION INSTRUCTIONS

FILTER HOSE SWIVEL KIT 826-1486

1. Remove the filter tray from the filter cabinet.
2. Important: Carefully remove the aluminum tape and strip-heater at the cabinet connection to expose the existing elbow and nipple.
3. Detach the black oil return hose from the existing elbow and nipple (see Figure 1).
3. Remove the existing elbow and nipple and replace them with the 1/2" close nipple and swivel provided.
4. Attach the oil return hose to the swivel (see Figure 2).
5. Reattach the strip-heater to the hose with the aluminum tape removed in Step 2 (excess tape may be trimmed). DO NOT tape the strip-heater to the swivel.

ITEM	QTY.	PART NO.	DESCRIPTION
