

Drain Valve Safety Switch Retrofit Kit (826-1771)

Installation Instructions

(REPLACES DEAN P/N 1963)

ASSEMBLY DETAIL: Shown assembled on existing mounting bracket.

BILL OF MATERIALS:

PART NUMBER	DESCRIPTION	QTY
807-1569	Safety Switch	1 EA
807-1570	Clip, Safety Switch	1 EA
807-1397	Terminal, Push-On- Male	2 EA
807-3537	Terminal, Push-On- Female	2 EA
809-0095	Screw, 6-32 X 3/8"	2 EA
809-0250	Nut, Keps 6-32	4 EA

INSTRUCTIONS:

1. Disconnect power from fryer, drain oil, turn the gas valve "OFF" and allow fryer to cool.
2. Remove existing safety switch and clamping bracket.
3. Cut and strip wires going to old safety switch.
4. Add female wire terminals to each of the existing wires.
5. Install new safety switch assembly on drain valve bracket (see photo for reference).
6. Connect the two wire terminals to the safety switch assembly.
7. Ensure gas valve is "OFF" and remains off during steps 8 and 9. Reconnect power to fryer and turn the power switch ON. Ensure drain valve is fully closed.
8. Push reset switch to "ON" and indicator light should go on, indicating the fryer is reset.
9. Open drain valve and the reset indicator light should go off, indicating the new safety switch is working properly. Close the drain valve and repeat step 8.
10. Refill fryer with oil. Turn gas valve "ON" and follow start-up procedures outlined in the fryer manual.
