

FilterQuick Oil Management Quick Reference

NOTE: Use Filter Paper Box of 100 16.5" x 25.5"
Frymaster, PN #8030445 -RSCS-PC #2577598

CHANGING FILTER PAPER / CLEANING FILTER PAN INSTRUCTIONS

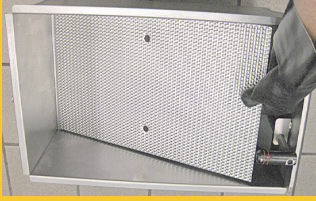

Warning: Before changing paper, make sure pan is cooled. Wear oil-proof insulated gloves.

Remove the filter pan and remove the crumb tray, hold-down ring, filter paper and inner screen.

Clean the pan and its components. Ensure the filter pan is completely dry.

Place the inner screen in the bottom of the pan.

Lay the filter paper over the pan and press into place with the hold-down ring.

Ensure the paper is folded up around the hold-down ring.

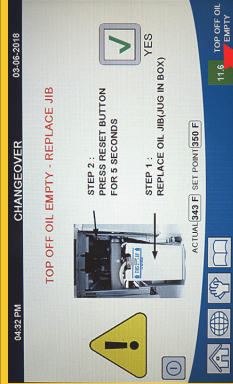

Place the crumb tray in the pan, ensuring it is seated properly in the pan.

Ensure the pan is firmly seated in the fryer and the **P** is **NOT** visible in the upper right corner of the display.

RESPONDING TO TOP OFF OIL EMPTY / REPLACING THE JIB (Jug In Box)

TOP OFF OIL EMPTY

Press **✓ (YES)** button to acknowledge.

Open cabinet and slide JIB out from cabinet.

Remove the cap and pour any remaining oil in the container into all fry vats equally.

With the jug upright remove the cap and foil seal.

Put the tube in the new full container.

Slide the JIB into the fryer cabinet.

Press and hold the orange JIB reset button five (5) seconds to reset the top off system. The top off oil empty message will clear.
