

## Instruction Sheet

**Subject: 8263804 UHCTHD USB Adaptor Kit**

**Models affected: McDonald's UHCTHD Holding Cabinets**

**Follow these instructions to replace a USB adaptor on a UHCTHD.**

1. Disconnect power from the cabinet.
2. Remove the top cover of the cabinet by removing the four (4) Phillips head screws that attach the cover.
3. Push down on the clip attaching the cable and disconnect the USB cable from the rear of the USB adaptor (see Figure 1).
4. Push the tabs on both sides of the USB adaptor and push out of the cabinet (see Figure 2).
5. Remove the retaining nut from the new USB adaptor.
6. Slide an adaptor plate over the USB cable and insert the new USB drive into the opening of the cabinet (see Figure 3).
7. Using a small amount of force push on the USB port so it is fully seated into the cabinet (see Figure 4).
8. Slide the rear adaptor plate and the retaining nut onto the rear of the USB adaptor and secure (see Figure 5).
9. Connect the USB extension cable to the disconnected cable in step # 3 (see Figure 6).
10. Reverse steps 1-2 to return the cabinet to service.
