

Service Bulletin

Subject: Sonic Critical Stocking Parts

Models: MercoMax™ MHL and MHG Visual Holding Cabinets

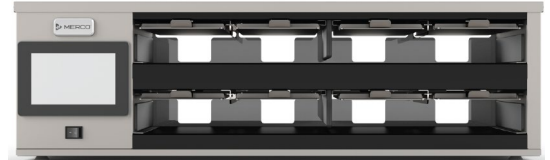

3/15/2024

Merco is starting a nationwide roll out of new Visual Holding cabinets for Sonic.

It is imperative that our FAS network stock the critical parts below to support the customer and to achieve a minimum 80% First Time Fix (FTF).

Each FAS that supports a Sonic location should order the minimum quantity needed and adjust their stock as the demand and usage increases. Since these units do not require a start-up, the install locations are unknown.

NOTE: Please remind technicians who perform the installation and/or service Sonic holding cabinets to always carry the following parts in their trucks.

MHL 2x4

MHG 4x2

Critical Parts List		
Part Number	Description	Quantity
8263671	UI, MERCO UX (CONTROLLER)	1
