

Wingstreet K3000: Quick Start

Pressed Individually: Select a lane, scroll menu and programming options.

Pressed Simultaneously: Launches polish.

Morning

- Press **ON/OFF** button for fryer to heat to setpoint of 350F degrees. Controller displays **POLISH NOW?** alternating with **YES NO**.
- Press **Yes** (button under Yes display). The polish cycle begins. (Can be delayed up to two times before a polish must occur.)
- Follow the prompts on the controller for the polish cycle.
- At the end of the polish cycle, the controller displays **OFF**.

Cooking

- Fryer displays **READY** when ready for cooking.
- **READY display:** Select cooking lane by pressing Yellow, Blue, Red or Green lane button. **SEL PROD** is displayed. Press a product button and drop basket with product in it.
- **SHAKE display:** Controller will sound a buzzer after pre-programmed shake time for shake. Fryer will continue to cook product selected after shake time alarm.
- **DONE display:** Press Yellow, Blue, Red or Green lane button when cook cycle is complete and buzzer sounds.
- **Cancel Cook Cycle:** Press and hold Yellow, Blue, Red or Green lane button for 3 seconds to cancel a cook cycle.

Filtering/Closing

- Open the drain valve.
- **FILTER NOW? YES/NO** is displayed. Press the red (YES) button to filter. Follow the prompts on the controller for the filter cycle. At the end of the filter cycle the controller displays **OFF**.
- To return the fryer to setpoint temperature, follow steps under **Morning** section of this Quick Start Guide.

Programming and computer navigation for the filter options are shown below. The left and middle column show the computer displays; the right column has the action necessary to continue. Exit from a programming step at any time by pressing the Scan key until the display returns to its pre-programming status. To delete a product from a button enter a time of 0:00 and press the SCAN button.
