Bulletin 2004-31-ABDE

Page 1 of 1

Date: 8/30/2004

SUBJECT: GF14, SR/SM-Series Thermostat Calibration

The Sunne thermostat used on the Frymaster GF14 and all Dean SR and SM-series fryers is properly calibrated when it holds temperature between 20°F below setpoint and 10°F degrees above setpoint. Service calls to create a narrower temperature range surrounding setpoint are not covered under warranty.
