SUBJECT: New Fryer for Burger King

The Triple Play, or BK300, a new gas fryer for Burger King.

A new tube gas fryer for Burger King, the Triple Play or BK300, is being introduced. It is released for sale in the US and overseas. The unit has a unique computer, a reshaped frypot and some models have a fry dispenser well. The fryer is otherwise similar to a high-efficiency Decathlon fryer.

The stocking list to support the new fryer is shown in the matrix at right. ASA's will be notified as these fryers enter their coverage areas.

The computer manual, 819-6558; a computer quick reference, 819-6559; and the fryer operational manual, 819-6557 are posted on Frymaster's web site. The service parts are found in the HD Service and Parts manual, 819-6314, which is also posted.
