**Subject: Training Aids for FilterQuick For Taco Bell**

**11/15/ 2017**

The new fryer being introduced to Taco Bell, the FilterQuick with an FQ4000 touchscreen controller (FQGLA-T), is backed by a large amount of online training aids.

- Videos specific to the Taco Bell model are posted at the link below. These videos, which are accessible with a phone or wifi-connected computer, are a handy training aid when instructing the store staff on their new fryer.
  - [Operational Videos](#)

- A video on installation is posted to Frymaster's YouTube Technical Channel.
  - [Installation Video](#)

Training aids, such as videos and training modules (above and left) are posted online. A poster linked to videos ships with the fryers and the manuals are posted (below).

- A training module intended to familiarize techs with this fryer platform is posted to Frymaster's Web site on the Service Literature page. This is essential knowledge for techs encountering the fryer for the first time and a useful resource for in-house technical trainers to use.

- A video-linked quick reference poster ships with the fryer. It links, via QR code, to videos for specific fryer tasks, such as cooking, changing menus, reacting to filter prompts, preparing the filter pan, and replacing the oil JIB.

- The manuals for the new fryer are also posted online.
