

Service Bulletin

Subject: UHCHD-T Training

2/4/2020

• Frymaster will soon begin shipping a new holding cabinet to McDonald's.

• The cabinet is in test locations.

• The FAS network has to become familiar with the cabinet.

Accessing the Training

— classroom.google.com
 — password: dz0ivq

— Request individually emailed class access with bulletin 2019-04.

— Techs previously enrolled in Frymaster's online training program were emailed about the new class.

• An online training module and quiz are posted to Frymaster's online classroom.

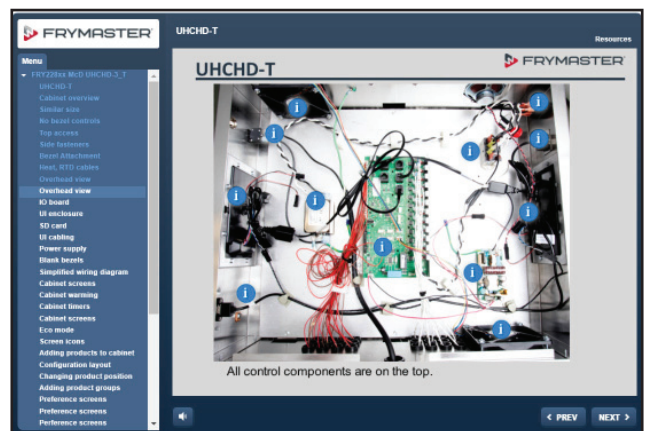

• Techs in the network are expected to take the training.

• Frymaster will monitor participation in the class.

• A service parts list will be provided as the population of the cabinet grows.

New UHCHD-T cabinet with touchscreen controllers. Tech training is available online.

Training module offers an annotated view of the cabinet's component shelf.
