Frymaster New Parts ID Webpage Assists in Locating Part Numbers Quicker

Subject: Frymaster Parts Identification Webpage

7/27/2023

Frymaster has a **NEW Parts Identification** webpage, that provides various tools to locate a part number more easily. This page can be found at the following [Parts ID Page](http://www.frymaster.com/Service) link located at www.frymaster.com/Service. There are two (2) ways to locate this page:

1. Click on the Parts Identification Tab (see Figure 1).
2. Click on the Service pull down (see Figure 2); Click on Parts and Warranty and then click on Parts Identification.

Figure 3

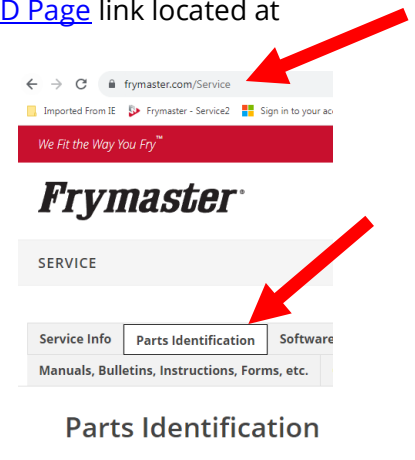

Figure 1

3. A link to the Major Components Manual (see Figure 3) is available. This list the **MOST** common ordered parts for our equipment. QR codes and links in each section of the manual link to specific parts manuals for the equipment. **To better your searching within the Major Components Manual or any Parts Manuals, use the search function CTRL+F within the PDF. Then search for your desired part name.**
4. A new improved serial number look up tool is available. Entering a serial number will display parts/service manual(s) associated with that serial number (see Figure 4). Clicking on the Manual Part # link goes directly to that parts/service manual.

Tuesday, July 25, 2023 Parts/Service Manuals 02:32:10 PM

Serial number: **2302LD0025**
Model: **BIELA214-4TSD**

Manual Part#	Manual Description
8197342	BIELA14T ELEC PARTS 1803-NOW

Figure 4

5. Entering a Serial Number in the Model Search by Serial Number section provides the specific model number of the equipment.
6. Links to **ALL** Parts/Service Manuals are available on this page.
7. Links for the FAS's to place parts orders are also available on this page.
8. Email – If after using the Major Components manual above, and/or any other manuals and you aren't able to locate the part number, email us at PartsID@frymaster.com.

The following information **MUST** be provided:

1. Serial number of the fryer.
2. Part(s) needed.
3. Photos if possible of fryer, rating plate inside the door of the fryer and part.
4. We will respond within the next business day.
