Subject: FilterQuick Intuition Domestic Release

Models: (FQIE30, FQIG30 Fryers)

4/16/2026

Frymaster is rolling out a new fryer, FilterQuick Intuition FQIG30 and FQIE30. The fryer features a touchscreen controller, automatic filtering, automatic oil top off and has the option for an onboard oil quality sensor and basket lifts.

This fryer is more intuitive, and it takes serviceability to another level. Most components are serviceable from the front of the fryer. Many components between gas and electric fryers are common.

The new fryer features new reversing actuators on the drains to prevent drain and actuator damage. The gas fryers have integrated new metal fiber burners which are more robust than previous ceramic burners. The new controller includes more onscreen guidance and troubleshooting. The same easily accessible part is used for the gas temperature probe, top off probe, and AIF probe. The 8gpm filter pump is a common pump that is used in existing fryers. The new fryer uses a Variable Frequency Drive (VFD) that allows use of a 230V 3-phase pump motor across all voltages. This allows a new feature to reverse the filter pump to clear jams.

There are a few mandatory parts that can completely disable the entire system, that are marked accordingly, along with the other recommended stocking parts.

PART NUMBER	DESCRIPTION	MANDATORY STOCKING PARTS	RECOMMENDED STOCKING PARTS
8263893	Intuition Power Supply Kit	✓	✓
8263896	Intuition SCB w/SW Assembly	✓	✓
8263895	Intuition HCB w/SW Assembly		✓
8263932	Intuition Touch Screen Service Kit		✓
8263867	Intuition Probe Kit (Gas Temp Probe, ATO Probe, AIF Probe)		✓
130012303	UI Controller Cooling Fan		✓
130000308	SCB Cooling Fan		✓
130000049	Combustion Fan		✓
8263868	Intuition Gas OIB Kit		✓
130000047	Actuator (Suction & Return Valve)		✓
130299600	Actuator RH Drain Valve Auto Reversing (Yellow/Black)		✓

PART NUMBER	DESCRIPTION	MANDATORY STOCKING PARTS	RECOMMENDED STOCKING PARTS
130299605	Actuator LH Drain Valve Auto Reversing (Blue/Black)		✓
8263869	VFD (Variable Frequency Drive) KIT		✓
8263875	Kit, Pump Motor 230V 3-phase motor		✓
8263192	8 GPM Pump Kit		✓
8076487	Ignition Module		✓
8263876	O-ring Kit (Filter Pan/Pre-Filter)		✓
130009476	Solenoid ½"		✓
130001613	Solenoid ¼"		✓
8263894	Pressure Switch Service Kit		✓
8263931	Pan Proximity Sensor Kit		✓
130252984	Flexline XL, 5/8" X 9.50" Long		✓
130252985	Flexline XL, 5/8" X 11.50" Long		✓
130296413	Flexline XL, 5/8" X 13.00" Long		✓
130296321	Flexline XL, 5/8" X 18.00" Long		✓

It's imperative that our FAS network stock sufficient quantities of parts to support the new fryer in the field.

Service companies in the network will be notified individually when the fryers are shipping to your area.
